Introductions

Introduce yourself and your organization and then answer:

Would you rather be able to see 10 minutes into your own future or 10 minutes into the future of anyone but yourself?

SUICIDE PREVENTION STRATEGIC PLAN— Data Team Responsibilities

- 1) Review and present suicide death and attempt data on an annual basis
- 2) Use data on a continuous basis to inform strategic plan priorities, implementation, and effectiveness
- 3) Monitor data to identify:
 - existing and emerging trends
 - factors that may increase or lessen risk, and
 - at-risk population groups
- 4) Identify opportunities to enhance data capacity and expand data collection processes: today's focus
- 5) Support the development of an **annual report** on status of suicide related behaviors (deaths, attempts, hospitalizations) as well as prevention activities (i.e. calls to crisis lines)
- 6) Establish data-sharing protocols and refine centralized reporting systems

Debrief and Recommendations

- What feedback do you have regarding our recent presentation? (Thorns, roses)
 - Include a message: “In sacred honor to those who these statistics represent. Numbers, graphs, and charts are a way to help us see the big picture of how tragedy and suffering might be prevented. Each ‘data point’ represents a life, a family, loved ones, pain, and in some cases, recovery.”
- Based on our review of the data, what recommendations do you have for our Teams?

Annual Report

- To be submitted in June. What would you think is important to include?
 - All of the slides, more complete data
 - Other? Recommendations?

Other Data to be Collected

- Pre-Planning Care Coordination Team to take place soon
- Lethal means data
- Suicide Prevention hotline data, crisis text line
- Support group data (?)
- 5150/5585 involuntary hold data
- California Healthy Kids Survey data
- Training numbers for Marin County residents or workforce
- Additional data in partnership with First Responders/EMS
